A fundamental property of magnetism has been disclosed through University of Copenhagen research. The discovery may be key to development of a new generation of powerful computers.

### Scientists discovers new properties of magnetism that could change our computers

After obtaining a 1st Class Honours degree from the University of Sheffield, Mark Rainforth initially followed an industrial career. He later joined the Department from the University of Leeds in 1989 ...

Using nonlinear optimization procedures, it is shown that the applied policy is not Pareto efficient. Applying an optimal policy instead of the current one could Pareto improve the social state by ...
